Re: **Submittal of Supplemental Sampling Work Plan for Soil/Sediment Sampling and Groundwater Data Collection, Revision 1**  
**Operable Unit 2, McIntosh, Alabama**

Dear Ms. Walden:

Olin Corporation (Olin) herein submits the *Supplemental Sampling Work Plan for Soil/Sediment Sampling and Groundwater Data Collection, Revision 1*. This work plan addresses data quality objectives for the wastewater/former discharge ditches, floodplain soils, and groundwater water level collection developed by Olin and USEPA during a collaborative meeting on January 17-18, 2012. This work plan has been revised in response to EPA comments dated November 9, 2012 on the previous submittal. Responses to EPA comments were provided on December 7, 2012 and are also included with this submittal for your convenience. This revision also addresses requirements presented in the April 2014 Record of Decision for Operable Unit 2.

Please let me know if you have any questions. I can be reached at (423) 336-4388 or via e-mail ([kdrobot@olin.com](mailto:kdrobot@olin.com)).

Sincerely,

OLIN CORPORATION
